QUALIFICATION SUMMARY

AIMS & BROAD OBJECTIVES

The aims of Diploma qualifications at levels 4 and 6 are:

- To provide progression from the graded examinations progressive mastery framework.
- To provide opportunities for learners to develop skills, knowledge and understanding of specialist areas such as teaching or working in the creative industries.
- To provide progression within the Diploma pathways for management and/or higher level technical and professional skills, knowledge and understanding.

Diploma qualifications in Performing and Creative Enterprise are suitable for candidates in the pre-16, 16–18, 19+ age groups. Diploma qualifications in Teaching are suitable for candidates aged 18+.

PROGRESSION

The Diploma qualifications are designed to allow opportunities for flexible progression routes through the choice of optional units which will allow learners to tailor qualifications to meet their own specific needs for either working within the creative industries or for further progression to further training or education.

ENTRY REQUIREMENTS

There are no entry requirements for these qualifications. However, candidates should be aware that there will be an expectation of technical knowledge and understanding covered in previous qualifications.

Applicants for the Teaching pathway must be 18 years of age or older at the time of entry, and must send a scanned copy of their birth certificate/passport/other proof of date of birth with their entry. Applicants under 18 years of age choosing the Performance or Creative Enterprise pathways may choose elective units from the teaching pathway.

It is recommended that candidates have some experience of teaching theory and practice prior to taking units with a teaching and learning focus as these units will require evidence of the candidate’s teaching practice.

For further details on assessment and fees and to apply for your Professional Diploma qualification please visit the RSL website at www.rslawards.com
ASSESSMENT INFORMATION

ASSESSMENT METHODOLOGY

The Level 4 Professional Diploma is assessed remotely and assessment evidence must be submitted digitally. Learners can submit assessment evidence for single units or for the entire Diploma. A full Level 4 Professional Diploma requires assessment evidence to be submitted for four units (three for the Performance pathway).

All assessment of these qualifications is external and is undertaken by RSL Examiners.

ASSESSMENT METHODOLOGY - UNITS

The grade awarded to each learner in each unit will depend in practice upon whether the learner has met the grading criteria overall. Learners will need to fulfil all of the learning outcomes contained within the unit in order to be eligible for grading at pass level or above.

All assessment is criterion referenced, based on the achievement of the specified learning outcomes (LOs). The grading criteria relating to each unit will be used to grade work submitted. The following table provides the possible combinations of grades awarded for learning outcomes, and how these are aggregated into a grade for the unit:

**RETTAKING UNIT ASSESSMENTS**

On receipt of summative assessment unit results, learners are permitted one further attempt (at an additional charge) for any or all learning outcomes within any assessed unit. This is uncapped and is available to any learner, regardless of the original grade awarded.
ASSESSMENT METHODOLOGY - QUALIFICATION

Learners will need to pass all of the units contained within the qualification in order to be eligible for grading at pass level or above. To work out the grade that is achieved for the qualification, the following methodology is used.

The credit value of the unit divided by 4 and multiplied by the Grade Multiplier giving a unit score:

Grade Multiplier
Pass = 2
Merit = 3
Distinction = 4

e.g. Unit credit value ÷ 4 x Grade Multiplier = Unit Score
10 ÷ 4 x 3 (merit) = 7.5

The total unit scores are combined and divided by the sum of the total credits available for the qualification. In the case of diplomas this is 40. This gives the total qualification score which can be made into a percentage.

86%–100% Distinction
63%–85% Merit
50%–62% Pass

**ACCESSING DATA AND INFORMATION**

Learners will be able to review their progress of their study through the learner pages. These are learner specific and can be accessed through a personal password system, which will allow a learner to look at their own records of unit registration and achievement but not those of any other learner.

**EXPECTATIONS OF KNOWLEDGE, SKILLS & UNDERSTANDING**

The Level 4 Professional Diploma will contain assessment outcomes at Level 4 which is broadly equivalent to the first year of an undergraduate Degree. Learners will need to ensure that they can access the appropriate training or learning opportunities to gain the skills, knowledge and understanding required for this level.

Learners can complete this qualification at their own pace and no specific form of training is required. However, it is recommended that learners contact a suitable trainer or mentor who will be able to provide them with opportunities for learning and practical application of skills.

**QUALITY ASSURANCE**

All RSL qualifications are standardised in accordance with the processes and procedures laid down by RSL.
CANDIDATE ACCESS AND REGISTRATION

ACCESS AND REGISTRATION

The qualifications will:

- be available to everyone who is capable of reaching the required standards.
- be free from any barriers that restrict access and progression.
- offer equal opportunities for all wishing to access the qualifications.

At the point of application, RSL will ensure that all candidates are fully informed about the requirements and demands of the qualification.

Candidates may enter online for any of the qualifications. Candidates are encouraged to complete the qualification in 1 year from the date of registration. Extensions to this time can be applied for by directly contacting RSL awards at info@rslawards.com.

RECOMMENDED PRIOR LEARNING

Learners are not required to have any prior learning for these qualifications. However, learners should ensure that they are aware of the requirements and expectations of the qualifications before entering for an assessment.
FURTHER INFORMATION AND CONTACT

APPROVAL OF REPERTOIRE

All repertoire should be agreed at least 6 weeks in advance of the submission of the video with RSL. Chosen repertoire will be checked to ensure that it is comparable to the standard of the indicative repertoire lists and approval will be given once this check is complete.

You must submit complete programmes and may send in only one complete programme for approval at any time. We are unable to consider approval of individual pieces. RSL will aim to approve programmes within 15 working days. If RSL is unable to approve programmes within this time you will be notified accordingly.

If the proposed repertoire is agreed, RSL will issue a permission statement, which will remain valid for six months. You should submit the evidence for this unit within this timescale.

If the proposed repertoire is not agreed, RSL will contact the learner by email. The learner should then change piece(s) as necessary and re-submit the whole programme (or replace the whole programme with pieces from the relevant repertoire list).

In approving programme proposals, we do not consider either timing or balance. The approval is simply in terms of technical and musical difficulty, and it is the learner’s responsibility to design an appropriate and balanced programme that complies with the stipulated timings.

RSL cannot accept responsibility if you submit evidence for this unit before requesting approval for your programme. RSL’s decision on approval of any item or programme is final.

INTERNATIONAL LEARNERS

Units in this syllabus document are drafted to take account of legislation and regulations applicable in the UK. If studying outside of the UK, please indicate the relevant legislation and regulations for the country in which you reside, including links to websites or other resources as appropriate.

UNIT SPECIFICATIONS
ADVANCED REPERTOIRE AND TECHNICAL SKILLS

(DOUBLE)

Unit Code: PD401
GLH: 20
Total time for the unit: 200

AIMS/PURPOSE

This unit follows the progressive mastery framework of graded examinations at Grades 1-8 and vocational graded examinations in dance at Intermediate and Advanced Foundation. The aim of this unit is to further develop advanced technical skills beyond the standard required for Grade 8/Advanced Foundation and present these through a practical performance.

UNIT CONTENT

WHAT ARE ADVANCED TECHNICAL SKILLS?

These are skills that would be considered to be more complex than those demonstrated for Grade 8/Intermediate/Advanced Foundation.

Broadly speaking, these skills include:

- The ability to show technical mastery and personal style in performance.
- The use of an extensive vocabulary of musical skills and/or dance movements and/or acting skills
- Assured musicality and artistry
- The ability to demonstrate a performance as a coherent entity in a confident and assured manner through:
  - Integrating personal knowledge and experience with the repertoire required in your chosen discipline/genre.
  - Appropriate subtleties of performance
  - Evidence of varied and challenging work being undertaken
  - The ability to communicate subtleties of interpretation effectively
  - The ability to interpret the repertoire for your chosen discipline/genre with a developing sense of individuality and style
- An adaptable, self-confident approach to performance skills.

The content of the performance is dictated by the complexity of the repertoire chosen for an individual discipline/genre. You may choose one of the following genre/disciplines which is offered by RSL.

Music – electric guitar, bass, drums, piano, keyboards, acoustic guitar, vocals.
Dance – Street, Jazz
Performing arts – Musical Theatre/acting disciplines (acting and/or singing and/or dancing) – you will need to specify which disciplines you will be demonstrating as part of your rationale for the choice of repertoire.

You will be expected to perform a programme of own choice pieces with a minimum duration of 25 minutes.
**LIVE PERFORMANCE TO AN AUDIENCE**

The pieces chosen for this unit can be performed either as solo or accompanied. The accompaniment can be live or via a backing track. If a backing track is used, another person can be present to operate any technical equipment.

The audience for the performance should be a minimum of 2 people who are at the performance for the purpose of viewing it. The audience should not include others involved in the production of the performance including the teacher/tutor.

**CHOOSING APPROPRIATE REPERTOIRE**

You should compile/choreograph and perform a varied and contrasting programme around a theme of your own choosing. The programme should be of the required duration and result in a balanced performance.

All programmes must consist of a minimum of two pieces. These can be own choice pieces or drawn from the indicative repertoire lists. The choice of pieces should be agreed in advance with RSL. Guidance on the choice of pieces at an appropriate standard is available.

Please note that repertoire chosen should be suitable for a particular discipline or genre and that a performance in multiple genre or disciplines is not appropriate for this unit.

**APPROVAL OF REPERTOIRE**

Please see this specification for information about RSL’s process for the approval of repertoire.

**USE OF NOTES DURING THE PERFORMANCE**

You may keep choreographic or musical notes with you during the performance if you wish to refer to these between pieces. However, these must not interfere with the performance or the level of audience engagements.

**LEARNING OUTCOMES**

Through completion of this unit, you will:

1. Plan a performance of advanced technical skills
2. Demonstrate an advanced level of technical skills through performance
3. Evaluate the performance
ASSESSMENT EVIDENCE

This unit will be assessed through the demonstration of performance. You should provide:

- A video of the performance of a minimum duration of 25 minutes.
- An evaluation of your performance. The evaluation should include:
  - The rationale for the pieces chosen, including the technical skills to be demonstrated and the theme.
  - A description of the preparation/rehearsal for the performance.
  - Identification of own technical strengths and areas for development with reference to specific elements of the performance.
  - An evaluation of the performance itself.

Please note that the video should show a continuous performance with no excessive breaks between pieces.

Evidence of planning and evaluation may be presented as; written work, video presentation, or podcast. Total written evidence must not exceed 1500 words. Total audio/visual evidence must not exceed 10 minutes.

Planning and executing a performing arts production as part of a group is a key skill to master. During your career, most musicians, dancers and actors are likely to have a variety of roles in group performances, as well as those working in technical theatre and production roles.

Being part of a group production requires an awareness of your own role and how it contributes to the overall group, working with others to construct and deliver a coherent and balanced production. It also requires an understanding of the rehearsal process and working together as a team to develop and master a production.

In this unit, you will demonstrate how you contribute to planning, designing and rehearsing a live performance production to a chosen theme in any style, take part in or support a live group performance to an audience and evaluate your individual contribution.

UNIT CONTENT

WHAT IS GROUP PRODUCTION?

If you are submitting a live performance this means that evidence for the performance should be submitted as a performance, which is between 10 and 30 minutes duration.

If you are presenting an edited performance (for example a full show which you have edited to show your contributions) please ensure that this is clearly labelled and that only the edited sections are presented. RSL will not be able to assess more than the stated maximum duration of 30 minutes of the performance.

The audience for the performance should be a minimum of 2 people who are at the performance for the purpose of viewing it. The audience should not include others involved in the production of the performance including the teacher/tutor.

CHOICE OF REPERTOIRE/_THEME

You should compile/choreograph and perform and/or provide technical support for a balanced performance around a theme of your own choosing. You may choose to present a full show performance in which you have played a role but which is longer than the stated duration. If this is the case please clearly label the edited sections.

All performances must consist of a minimum of one piece. This can be own choice pieces or drawn from the indicative repertoire lists. The choice of pieces should be agreed in advance with RSL. Guidance on the choice of pieces at an appropriate standard is available.

APPROVAL OF REPERTOIRE

Please see the specification for details about RSL’s approval process for repertoire.

MARKETING YOURSELF AS A CREATIVE PROFESSIONAL

Unit Code: PD406
GLH: 10
Total time for this unit: 100

AIMS/PURPOSE

The creative industries can be a challenging place to find work which will develop your career as a creative professional. There are a large number of individuals seeking work at any one time which means that competition can sometimes be fierce. So how do you get yourself and your work noticed and build your own brand within the sector?

This unit will give you opportunities to gain an understanding of the ways in which you can market and ‘sell’ your brand within the creative industries and develop skills in marketing and promoting yourself and your work.

UNIT CONTENT

This unit is about developing your knowledge, skills and understanding about the ways in which you can build your ‘brand’ and how to market this to different audiences.

BUILDING YOUR CREATIVE IDEAS AND YOUR ‘BRAND’

Within the creative industries it is important to understand the ways in which you can promote and market yourself as a creative professional. This could be as a performer, a peripatetic teacher or in another creative role.

Questions to ask include:

- What are my skills and who needs them? How do I present my skills?
- What experience do I have and how do I present this?
- How do I get started in promoting myself and my ‘brand’ – who do I need to go to and what do I need to do?

MARKETING AND PROMOTING YOUR ‘BRAND’

Once you have developed your ideas and your work, you will need to market and promote that to a range of potential audiences. This could be employers, parents, students, music, dance or musical theatre organisations, agents etc.

You will need to build material which showcases not only your skills but also your brand identity. You’ll also need to think about who needs to be sent or see the marketing materials – different types of materials will be useful in different situations. These could include:

- Pictures of you/your band/performances you have taken part in
- Video of your performances or show reels
- Showcases
- Biographies or summaries of your skills and experience
- Reviews of your performances
- Your teaching experience and feedback from parents and students
You'll need to think about how you send out your material to potential audiences and how to build and communicate with your contacts and networks. This could be via social media (Facebook, Twitter, Instagram etc.) or more formal communications like e-mail. It could even be face to face.

CONTINUOUS PROFESSIONAL DEVELOPMENT (CPD)

Alongside marketing and promoting your brand you will need to ensure that your skills, knowledge and understanding are up to date to keep your brand as current and relevant as possible.

CPD can be offered by a number of organisations and it is important to know how to select appropriate CPD that you can attend and which will be of benefit to you in the short, medium or long term.

AIMS/PURPOSE

Working in the creative industries is likely to mean that you run your own business, are a freelancer, are employed by one of the many micro-businesses which operate across the sector or a combination of some or all of these. This means that it is vital to understand how to plan and run your own business, whether as a teacher, performer or another role within the creative industries. In this unit you will have opportunities to show your understanding of business planning, finance and legislation relating to setting up and running a business. You will also demonstrate an understanding of how to be entrepreneurial in the creative industries, generating new ideas and turning these into business opportunities.

UNIT CONTENT

This unit is about developing your knowledge, skills and understanding in entrepreneurship and starting your own business.

ENTREPRENEURSHIP

Creativity and entrepreneurship go hand in hand. All entrepreneurs will need to be creative but in the creative industries, entrepreneurship focuses on how you invest in your own talent. As an entrepreneur you will need to be focused, willing to see the possibilities and be adaptable, all under pressure. You will also need to be inventive, creative and persuasive when seeking out opportunities or embarking on ventures, all whilst working under pressure.

Things to think about:
- How do I generate new ideas and turn them into new products and services?
- What is the best way of connecting and working with partners, clients, and other significant players in my network?
- How do I identify opportunities in the marketplace to turn ideas into products and profits?

ENTERPRISE

Once you have decided on your creative ideas, you need to create business opportunities, either by starting your own business or working with the many small and micro businesses within the sector. In the creative industries almost 95% of businesses are micro businesses (defined as having fewer than 10 employees). The sector also has one of the highest proportions of self-employed workers, 35% compared with 15% across the workforce as a whole. Of these, freelancers (individuals who work for a range of clients) make up a significant proportion. Therefore, working in the creative industries is very likely to be as a freelancer, in another self-employed capacity, as a sole trader or microbusiness with a portfolio career.

Being able to set up and run a business as a freelancer can be challenging as you are responsible for all aspects of the business including marketing, sales and finance. Some of the issues you might need to take into account include:
- Setting yourself up as a sole trader or company
- Registering with HMRC as self-employed or registering your company
- Completing your tax returns annually
- Managing your income and expenditure
- Networking and marketing yourself
- Managing your workload
Once you have established your business, you may also want to think about how you maintain yourself as a freelancer, how to grow your business and how you can plan and manage your longer-term work.

You might need to set and revise your goals on a regular basis and set up some of the following:

- Structure
- Policies, Procedures and Processes
- Business plan
- Financial plan
- Marketing/growth plan

**LEARNING OUTCOMES**

Through completion of this unit, you will:

Understand how to set up a micro or freelance business.

**ASSESSMENT EVIDENCE**

You will need to produce:

A business proposal which shows the first year of a new business start up. The proposal will include:

- What type of business are you proposing to establish? How will it be run (as a limited company or a sole trader)?
- What legislation do you need to take account of and what measures need to be in place (risk assessment, insurances, DBS, policies etc)
- What are you offering?
- What are your creative ideas?
- What is the current competition?
- Identification of strengths and weaknesses, opportunities and threats (SWOT analysis)
- Marketing and promotion of the business
- Identification of risks and contingency planning
- Finance and budget
- How and when you will review the proposal

Evidence for this unit may be presented as: written work, video presentation, or podcast. Total written evidence for this learning outcome must not exceed 1000 words. Total audio/visual evidence for the evidence must not exceed 10 minutes.

INCLUSIVE LEARNING

Unit Code: PD408
GLH: 10
Total time for the unit: 100

AIMS/PURPOSE

A key principle of teaching is that of inclusivity. You may deliver to students from a wide range of backgrounds, age groups and levels of skill and ability. Therefore, inclusivity becomes integral to planning, delivering and evaluating the learning process. You need to be able to understand, promote and champion diversity, equality and inclusion both within your own teaching practice and more widely in music and performing arts. This unit gives you the opportunity to develop your understanding of inclusive learning and how to promote positive behaviour through practical activities which are drawn from your own teaching experience.

UNIT CONTENT

This unit is about developing your knowledge, skills and understanding of inclusivity and how it is applied in teaching practice.

Inclusivity has tended to focus on students with special educational needs (SEN). You are an important factor for the planning, management and evaluation of learning. However, inclusive learning is, in its broadest sense, about considering the diverse needs and backgrounds of all students to create a learning environment where they feel valued and have equal access to learn.

LEGISLATION RELATED TO INCLUSIVITY

Teachers need to be aware of the legislation which is related to inclusivity, most importantly the Equality Act (2010). The Act is based around the two key concepts of personal characteristics, protected by the law and prohibited conduct.

PERSONAL CHARACTERISTICS

Age, Disability, Gender Reassignment, Marriage and Civil Partnership, Pregnancy and Maternity, Race, Religion or Belief, Sex, Sexual Orientation

PROHIBITED CONDUCT

- **Direct Discrimination** is treating one person worse than another because of a protected characteristic and includes discrimination by association and perception. This sort of discrimination is never justifiable.
- **Indirect Discrimination** is putting in place a rule or policy or practice that has a worse impact on someone with a protected characteristic than someone without one, and that person suffers disadvantage. This sort of discrimination might be justifiable and can be deemed NOT to have taken place if it can be shown that the treatment is a proportionate means of achieving a legitimate aim.
- **Discrimination arising from Disability** happens when a person is treated unfavorably because of something arising as a consequence of the disability. This is different from direct and indirect discrimination. It can be deemed not to have taken place if it can be shown that the treatment is a proportionate means of achieving a legitimate aim or if the person did not know and could not reasonable have been expected to know about the disability.
- **Victimisation**
- **Harassment**
INCLUSIVE PRACTICE

Inclusivity is not just restricted to delivering lessons to students. It needs to be a key factor in the planning and evaluation of learning as well. Inclusive practice may take the following forms:

PLANNING LEARNING

- Ensuring that goals for students are achievable
- Planning individual learning goals for students
- Carrying out formative assessment of students’ skills and abilities
- Taking into account any disabilities or learning difficulties which may require different methods of delivery or teaching styles to be incorporated
- Ensuring appropriate choice of repertoire (e.g. age, cultural or religious background etc.)

DELIVERING TEACHING SESSIONS

- Identifying any particular needs for students before a class
- Managing the teaching session so that everyone feels included
- Communicating clearly with everyone and ensuring that everyone has understood instructions
- Identifying any additional support needed during a class

EVALUATING LEARNING

- Identifying individual progress and needs for future sessions
- Evaluating lesson plans and identifying any changes needed
- Talking to students about your progress and getting feedback on your needs

STUDENTS WITH SPECIAL EDUCATIONAL NEEDS (SEN)

Teachers need to be aware of the range of special educational needs that students may have and how students with special educational needs can learn and make progress.

Special educational needs include students with disabilities and/or learning difficulties. The Equality Act defines disability as ‘a physical or mental impairment which has a substantial and long-term adverse effect on a person's ability to carry out normal day-to-day activities’. These can fall into four broad categories:

Cognition and Learning Needs
E.g. general and/or specific learning difficulties (such as Dyscalculia and Dyslexia)

Communication and Interaction Needs
E.g. Autistic Spectrum Disorder (ASD), speech, language and communication needs

Sensory and Physical Needs
E.g. hearing impairment, multi-sensory impairment, physical disability, vision impairment

Social, Mental and Emotional Needs
E.g. Attention Deficit Disorder (ADD), Attention Deficit Hyperactivity Disorder (ADHD), mental health conditions

Teachers need to be aware of the Special Educational Needs Code of Practice (2015), which provides statutory guidance on duties, policies and procedures relating to Part 3 of the Children and Families Act (2014) and associated regulations.
LEARNING OUTCOMES

Through completion of this unit, you will:

1. Demonstrate inclusive practice when teaching
2. Reflect on your inclusive practice

ASSESSMENT EVIDENCE

You will need to provide:

A case study demonstrating your own approach to inclusive practice with one individual or group of students. The case study should cover how you plan and manage teaching of this individual or group and how the needs of students are identified and incorporated into planning and teaching. The case study should also include a reflection on the ways in which teaching styles have been used to ensure that the individual or all students in the group are engaged and motivated.

Evidence may be presented as; written work, video presentation, or podcast. Total written evidence must not exceed 1000 words. Total audio/visual evidence must not exceed 10 minutes

PLANNING, FACILITATING AND EVALUATING LEARNING

**Unit Code:** PD409  
**GLH:** 10  
**Total time for the unit:** 100

**AIMS/PURPOSE**

The ability to plan and facilitate learning is at the core of good teaching practice. In the creative arts, teachers need to consider how to create inspiring and motivating lessons which will engage and encourage students. This unit will give you the opportunity to show how you plan and carry out lessons with your students and evaluate your teaching practice and the learning process.

**UNIT CONTENT**

This unit is about developing your knowledge, skills and understanding of planning, facilitating and evaluating teaching and learning.

Evidence of planning, facilitating and evaluating learning should be drawn from your own teaching practice for individuals or groups working up to level 3 (Grade 8/Intermediate).

**PLANNING LEARNING**

Individuals and groups need a structured programme of learning to achieve their goals. Therefore, lesson planning is an important part of teaching practice. You need to be able to put together structured plans for teaching sessions and classes which show progression towards an identified goal. This is particularly important for teachers of graded examinations, where the abilities of individuals and groups of students will normally dictate the rate of progress, and some will progress faster than others.

There are a number of methods to use when planning learning:

- **Schemes of work** – these can be useful tools to provide detail of the content and structure of a set of lessons which can identify content coverage and plan out the time required to reach the identified goal.
- **Lesson plans** – for each individual lesson, a detailed plan can be helpful to ensure that the required content for that lesson is covered and that students are making progress with each lesson.

What to think about when planning learning

- Initial assessment – where are the students in terms of their learning and achievement?
- What is the goal they are working towards – exam, performance, show, recital?
- What will need to be covered and in what order?
- Will you need to build in time to practice/refresh learning/prepare for the examination?
- If you have groups, do any students have particular needs?
- How can you bring in opportunities for creativity (e.g. improvisation and student-led activities)?
FACILITATING PLANNING

When facilitating learning, you need to be aware of:

- Motivating and encouraging students – what methods can you use to keep them motivated and engaged?
- Communication – what methods can you use to communicate effectively with individuals and groups?
- Demonstration – showing students the syllabus elements
- Using resources – using props or other resources to explain or demonstrate to students
- Feedback – how do you feed back to your students on their progress?

EVALUATING LEARNING

Reflection and evaluation of how students are learning and progressing are an essential part of monitoring schemes of work and lesson plans and making appropriate changes to plans and lessons to ensure that students are progressing appropriately.

LEARNING OUTCOMES

Through completion of this unit, you will:

1. Plan lessons within a scheme of work
2. Demonstrate a range of teaching techniques
3. Evaluate teaching practice

ASSESSMENT EVIDENCE

You should submit:

- An outline of the scheme of work for one individual or group of students
- Lesson plans for five consecutive lessons within the scheme of work
- A video submission of one 20 minute minimum lesson in action (this must be one of the 5 planned lessons)
- An evaluation of the submitted lesson which includes student feedback

Evidence may be presented as; written work, video presentation, or podcast. Total written evidence must not exceed 1000 words Total audio/visual evidence must not exceed 10 minutes.

AIMS/PURPOSE

In this unit you will develop an understanding of the principles of formative and summative assessment, and the ability to identify student needs, track progress, make clear and robust assessment decisions and give appropriate and constructive feedback to your students.

UNIT CONTENT

PRINCIPLES OF ASSESSMENT

Assessment can be defined as a process of making judgments of learners' knowledge, skills and competence against set criteria. There are two key forms of assessment, formative and summative.

Formative assessment is about measuring the progress of students through a course of study by providing ongoing feedback to improve performance.

Summative assessment is about measuring achievement and outcomes at the end of a course of study.

The principles of assessment include:

- The ability to make valid and reliable judgements (i.e. that you are assessing the right things and that you can make repeatable judgements in the same way)
- The kinds of evidence to take into account when making assessment decisions
- How evidence can be authentic (i.e the student's own work), sufficient (detailed and clear enough to meet the criterion) and current (up to date)
- The importance of objectivity and fairness to students in making assessment decisions
- The importance of transparency for the students both in the decision made and the feedback given

TYPES OF ASSESSMENT AND EVIDENCE

These could include:

- Discussion with the student
- Observation of performance
- Written evidence from the student
- Written test
CARRYING OUT ASSESSMENT ACTIVITIES

In carrying out formative or summative assessments you will need to be able to:

- Prepare for assessment including:
  - Identifying student needs
  - Choosing the appropriate method of assessment
  - Communicating the requirements to the student(s)

- Carry out the assessment including:
  - Conducting the assessment
  - Making assessment decisions
  - Comparing the assessment with the standards or progress measures you are using
  - Recording the assessment decisions
  - Feeding back to students

LEARNING OUTCOMES

Through completion of this unit, you will:

1. Plan and carry out assessment activities.

ASSESSMENT EVIDENCE

You will need to submit:

A case study of either formative or summative assessment that you have carried out. This should include:

- How you planned the assessment activity – formative or summative, what type of assessment and the methodology you chose.
- How you carried out the assessment – what preparations and resources you needed to have in place, how you conducted the assessment and how you managed the process.
- How you gave feedback to the student(s) – what format you choose, how you delivered the feedback (formal or informal, verbal or non-verbal), how it was received and how you delivered constructive feedback which gave information about both strengths and areas for improvement or achievement based on the standards.
- An evaluation of your assessment practice – identifying your strengths and areas for improvement, how you managed the assessment process, any learning and development needed for the future.

Evidence may be presented as; written work, video presentation, or podcast. Total written evidence must not exceed 1000 words. Total audio/visual evidence must not exceed 10 minutes.

AIMS/PURPOSE

The learning process is at the heart of teaching. It is vital that teachers understand how learning takes place and how pedagogical approaches can influence learning. Teaching in music and performing arts areas also brings its own set of influences in the motivation and engagement of learners. In this unit, you will understand how pedagogical approaches can be applied to your own teaching, how different learner groups develop and how this affects the selection of repertoire and teaching styles.

UNIT CONTENT

This unit is about developing your knowledge, skills and understanding of pedagogical approaches to learning.

PEDAGOGICAL APPROACHES

Pedagogy relates to the “how”, or practice of educating. It concerns the interaction between teacher and learner, whilst recognising that how children learn and develop is not only subject to what is intended to be taught, but also how it is facilitated.

There are a wide range of pedagogical approaches, used both within the UK and internationally. Learners need to be able to consider the range of approaches commonly used in teaching in the performing arts and consider how these can be applied to your own practice in teaching music and the performing arts.

Pedagogical approaches could include:

- Creative pedagogy
- Enquiry-based learning
- Reflective learning
- Collaborative learning
- Learning through play
- Learning through demonstration
- Effective communication

EDUCATION IN THE CREATIVE ARTS

Understanding how learners engage in the music and performing arts is important for teachers. The performing arts can often be used as a way of motivating and engaging those learners who find traditional educational approaches more challenging. Many learners are engaged by practical delivery and a sense of achievement through the development of technical, musical and performance skills.

Learners who enter graded examinations will also have to demonstrate self motivation and self-reliance as teachers will often have a limited amount of teaching time to deliver the skills, knowledge and understanding required.
COGNITIVE DEVELOPMENT

Teaching depends on the understanding of how children develop and how the stages of development that can influence teaching styles. Teachers of music and performing arts will often deliver lessons to a diverse range of learners, from the very young to the very old. A secure understanding of the needs of different age groups is therefore important. Factors affecting cognitive development could include:

- The emotional development of children and adolescents
- Identity and self-esteem
- Body esteem and body image
- Difficult feelings for dancers and how to manage them
- Challenge, motivation, support and encouragement
- Fostering creativity
- Individuality and difference
- Self-care and responsibility for learning
- The needs of children and adults with learning difficulties and/or disabilities

SELECTION OF REPERTOIRE

The selection of challenging yet appropriate repertoire will be largely dependent on the learners age groups, skill levels and individual needs. You will need to be aware of the following considerations when selecting repertoire:

- Physical stamina and development
- Vocal/physical health
- Suitability of material for younger learners
- Complexity of material
- Cultural sensitivity and awareness
- Needs of individual learners

LEARNING OUTCOMES

Through completion of this unit, you will:

1. Understand how different pedagogical approaches meet the needs of music and performing arts learners
2. Understand learner development and the selection of appropriate and relevant repertoire
3. Understand how to reflect on your own teaching practice
ASSESSMENT EVIDENCE

You should provide the following evidence for assessment:

A case study which includes:

- Analysis of at least two pedagogical practices
- How these relate to your own practice
- The needs of a particular group of learners in relation to their cognitive development – the group of learners should be drawn from your own experience
- How the needs of learners you teach influence the selection of repertoire
- A reflection on your own practice including what you have learned about your teaching style, your strengths and what you could improve on

Evidence may be presented as: written work, video presentation, or podcast. Total written evidence must not exceed 1000 words. Total audio/visual evidence must not exceed 10 minutes.

SAFE TEACHING

Unit Code: PD413
GLH: 10
Total time for the unit: 100

AIMS/PURPOSE

This unit provides you with an overview of the key areas of legislation and good practice that you will need to be aware of if you are teaching either privately or within educational institutions (schools, colleges etc). It is vital that you are aware of and comply with the requirements so that you may demonstrate your responsibilities and your duty of care for the wellbeing and safety of the students you teach.

UNIT CONTENT

Legislation applicable to teaching (in any setting) in the UK.

HEALTH AND SAFETY

You need to be aware of the requirements of the Health and Safety at Work Act 1974 and how this affects your own situation. This is particularly important if you teach in a range of settings or own your own premises. You will need to understand how to ensure that students are safe when you have responsibility for them and that you are aware of any potential risks to health and safety in the venue or premises you teach in.

You will also need to understand how public liability and/or professional indemnity insurance applies to your work as a teacher.

SAFEGUARDING AND CHILD PROTECTION

The NSPCC defines Safeguarding as ‘the action that is taken to promote the welfare of children and protect them from harm’. Safeguarding can also be used more widely to include anyone who is at risk of abuse or neglect. For example, vulnerable adults or individuals with learning difficulties or disabilities.

Child protection is part of the safeguarding process. It focuses on protecting individual children identified as suffering or likely to suffer significant harm. This includes child protection procedures which detail how to respond to concerns about a child. In tandem with safeguarding and child protection is also an awareness of the Equality Act 2010 and the rights of individuals to be treated fairly and equally.

As a teacher you will need to be aware of your responsibilities in relation to safeguarding and child protection which includes:

- How to ensure that children and/or vulnerable adults are protected and safe when in your care.
- How to report any suspected safeguarding and/or child protection concerns and to whom.

Whilst it is not mandatory to have a check with the Disclosure and Barring Service (DBS), it is recommended that you understand what this is and what it means.
QUESTIONS TO ASK YOURSELF ABOUT SAFE PRACTICE

- How do you make sure that your teaching is inclusive? What are the challenges and issues to be addressed?
- How do you make sure that you are aware of health and safety requirements?
- What sort of measures do you have in place for safeguarding/child protection?
- How do you make sure you are protecting children you are teaching?
- How do you make sure you are insured against any potential risks?

RESOURCES

There are a number of websites which give information about health and safety and responsibilities. Some useful sources include:

LEARNING OUTCOMES

Through completion of this unit, the learner will:

1. Assess and manage risk when teaching
2. Manage safe practice when teaching
3. Reflect on your own practice

ASSESSMENT EVIDENCE

You should provide:

A case study explaining how you manage safe practice when teaching. This should include how you assess risk, manage health and safety issues and safeguarding/child protection, and how you reflect on your own practice.

Evidence may be presented as; written work, video presentation, or podcast. Total written evidence must not exceed 1000 words. Total audio/visual evidence must not exceed 10 minutes
