QUALIFICATION SUMMARY

AIMS & BROAD OBJECTIVES

The aims of Diploma qualifications at levels 4 and 6 are:

- To provide progression from the graded examinations progressive mastery framework
- To provide opportunities for learners to develop skills, knowledge and understanding of specialist areas such as teaching or working in the creative industries.
- To provide progression within the Diploma pathways for management and/or higher level technical and professional skills, knowledge and understanding.

Diploma qualifications in Performing and Creative Enterprise are suitable for candidates in the 16–18, 19+ age groups. Diploma qualifications in Teaching are suitable for candidates aged 18+.

PROGRESSION

The Diploma qualifications are designed to allow opportunities for flexible progression routes through the choice of optional units which will allow learners to tailor qualifications to meet their own specific needs for either working within the creative industries or for further progression to further training or education.

QUALIFICATION STRUCTURE

The Diploma qualifications have a set of core mandatory units which all learners choosing the pathway will take, which will be supplemented by further optional units.

The Advanced Technical Skills (Double) unit is 20 GLH and 200 TQT in size. All other units are 10 GLH and 100 TQT in size. Qualification structures and options reflect the double unit’s size in the range of core and optional units that can be chosen.

Learners may take one level 4 unit as part of their optional unit choice. These units are:

- Safe Teaching
- Self-care for creative professionals

ENTRY REQUIREMENTS

There are no entry requirements for these qualifications. However, candidates should be aware that there will be an expectation of technical knowledge and understanding covered in previous qualifications.

Applicants for the Teaching pathway must be 18 years of age or older at the time of entry, and must send a scanned copy of their birth certificate/passport/other proof of date of birth with their entry. Applicants under 18 years of age choosing the Performance or Creative Enterprise pathways may choose elective units from the teaching pathway.

It is recommended that candidates have some experience of teaching theory and practice prior to taking units with a teaching and learning focus as these units will require evidence of the candidate’s teaching practice.

For further details on assessment and fees and to apply for your Professional Diploma qualification please visit the RSL website at www.rslawards.com
**ASSESSMENT INFORMATION**

**ASSESSMENT METHODOLOGY - UNITS**

The grade awarded to each learner in each unit will depend in practice upon whether the learner has met the grading criteria overall. Learners will need to fulfil all of the learning outcomes contained within the unit in order to be eligible for grading at pass level or above.

All assessment is criterion referenced, based on the achievement of the specified learning outcomes (LOs). The grading criteria relating to each unit will be used to grade work submitted. The following table provides the possible combinations of grades awarded for learning outcomes, and how these are aggregated into a grade for the unit:

**RETAKING UNIT ASSESSMENTS**

On receipt of summative assessment unit results, learners are permitted one further attempt (at an additional charge) for any or all learning outcomes within any assessed unit. This is uncapped and is available to any learner, regardless of the original grade awarded.
ASSESSMENT METHODOLOGY - QUALIFICATION

Learners will need to pass all of the units contained within the qualification in order to be eligible for grading at pass level or above. To work out the grade that is achieved for the qualification, the following methodology is used.

The credit value of the unit divided by 4 and multiplied by the Grade Multiplier giving a unit score:

Grade Multiplier
Pass = 2
Merit = 3
Distinction = 4

e.g. \[ \text{Unit credit value} \div 4 \times \text{Grade Multiplier} = \text{Unit Score} \]
\[ 10 \div 4 \times 3 \text{ (merit)} = 7.5 \]

The total unit scores are combined and divided by the sum of the total credits available for the qualification. In the case of diplomas this is 40. This gives the total qualification score which can be made into a percentage.

86%–100% Distinction
63%–85% Merit
50%–62% Pass

ACCESSING DATA AND INFORMATION

Learners will be able to review their progress of their study through the learner pages. These are learner specific and can be accessed through a personal password system, which will allow a learner to look at their own records of unit registration and achievement but not those of any other learner.

EXPECTATIONS OF KNOWLEDGE, SKILLS & UNDERSTANDING

The Level 6 Diploma will contain assessment outcomes at Level 6 which are broadly equivalent to an undergraduate Degree. Learners will need to ensure that they can access the appropriate training or learning opportunities to gain the skills, knowledge and understanding required for this level.

Learners can complete this qualification at their own pace and no specific form of training is required. However, it is recommended that learners contact a suitable trainer or mentor who will be able to provide them with opportunities for learning and practical application of skills.

QUALITY ASSURANCE

All RSL qualifications are standardised according to the processes and procedures laid down by RSL.
CANDIDATE ACCESS AND REGISTRATION

ACCESS AND REGISTRATION

The qualifications will:

- be available to everyone who is capable of reaching the required standards
- be free from any barriers that restrict access and progression
- offer equal opportunities for all wishing to access the qualifications

At the point of application, RSL will ensure that all candidates are fully informed about the requirements and demands of the qualification.

Candidates may enter online for any of the qualifications. Candidates are encouraged to complete the qualification in 1 year from the date of registration. Extensions to this time can be applied for by directly contacting RSL awards at info@rslawards.com.

RECOMMENDED PRIOR LEARNING

Learners are not required to have any prior learning for these qualifications. However, learners should ensure that they are aware of the requirements and expectations of the qualifications before entering for an assessment.
FURTHER INFORMATION AND CONTACT

APPROVAL OF REPERTOIRE

All repertoire should be agreed at least 6 weeks in advance of the submission of the video with RSL. Chosen repertoire will be checked to ensure that it is comparable to the standard of the indicative repertoire lists and approval will be given once this check is complete.

You must submit complete programmes and may send in only one complete programme for approval at any time. We are unable to consider approval of individual pieces. RSL will aim to approve programmes within 15 working days. If RSL is unable to approve programmes within this time you will be notified accordingly.

If the proposed repertoire is agreed, RSL will issue a permission statement, which will remain valid for six months. You should submit the evidence for this unit within this timescale.

If the proposed repertoire is not agreed, RSL will contact the learner by email. The learner should then change piece(s) as necessary and re-submit the whole programme (or replace the whole programme with pieces from the relevant repertoire list).

In approving programme proposals we do not consider either timing or balance. The approval is simply in terms of technical and musical difficulty, and it is the learner’s responsibility to design an appropriate and balanced programme that complies with the stipulated timings.

RSL cannot accept responsibility if you submit evidence for this unit before requesting approval for your programme.

RSL’s decision on approval of any item or programme is final.

INTERNATIONAL LEARNERS

Units in this syllabus document are drafted to take account of legislation and regulations applicable in the UK. If studying outside of the UK, please indicate the relevant legislation and regulations for the country in which you reside, including links to websites or other resources as appropriate.

UNIT SPECIFICATIONS
ADVANCED REPERTOIRE AND TECHNICAL SKILLS

(DOUBLE)

Unit Code: PD601
Level: 6
GLH: 20
Total time for the unit: 200

AIMS/PURPOSE

This unit follows the progressive mastery framework of graded examinations at Grades 1-8 and vocational graded examinations in dance at Intermediate and Advanced Foundation and the Advanced Technical Skills unit in the level 4 Diploma. The aim of this unit is to further develop advanced technical skills beyond the standard required for level 4 and present these through a practical performance.

UNIT CONTENT

WHAT ARE TECHNICAL SKILLS?

These are skills that would be considered to be more complex than those demonstrated for Level 4.

Broadly speaking, these skills include:

- The ability to show technical mastery and personal style in performance.
- The use of an extensive vocabulary of musical skills and/or dance movements and/or acting skills
- Assured musicality and artistry
- The ability to demonstrate a performance as a coherent entity in a confident and assured manner through:
  - Integrating personal knowledge and experience with the repertoire required in a chosen discipline/genre.
  - Appropriate subtleties of performance
  - Evidence of varied and challenging work being undertaken
  - The ability to communicate subtleties of interpretation effectively
  - The ability to interpret the repertoire for a chosen discipline/genre with a developing sense of individuality and style
- An adaptable, self-confident approach to performance skills.

The content of the performance is dictated by the complexity of the repertoire chosen for an individual discipline/genre. You may choose one of the following genre/disciplines which is offered by RSL:

Music – electric guitar, bass, drums, piano, keyboards, acoustic guitar, vocals.
Dance – Street, Jazz
Performing arts – Musical Theatre/acting disciplines (acting and/or singing and/or dancing) – you will need to specify which disciplines you will be demonstrating as part of your rationale for the choice of repertoire.

You will be expected to perform a programme of own choice pieces with a minimum duration of 30 minutes.
LIVE PERFORMANCE TO AN AUDIENCE

The pieces chosen for this unit can be performed either as solo or accompanied. The accompaniment can be live or via a backing track. If a backing track is used, another person can be present to operate any technical equipment.

The audience for the performance should be a minimum of 2 people who are at the performance for the purpose of viewing it. The audience should not include others involved in the production of the performance including the teacher/tutor.

CHOOSING APPROPRIATE REPERTOIRE

You should compile/choreograph and perform a varied and contrasting programme around a theme of your own choosing. The programme should be of the required duration and result in a balanced performance.

All programmes must consist of a minimum of two pieces. These can be own choice pieces or drawn from the indicative repertoire lists. The choice of pieces should be agreed in advance with RSL. Guidance on the choice of pieces at an appropriate standard is available.

At least one piece should contain an element of improvisation. The piece, section and the technique developed need to be detailed in the rationale.

APPROVAL OF REPERTOIRE

Please see page 14 this syllabus for information about RSL’s process for the approval of repertoire.

USE OF NOTES DURING THE EXAM

You may keep choreographic or musical notes with you during the performance if you wish to refer to these between pieces. However, these must not interfere with the performance or the level of audience engagement.

LEARNING OUTCOMES

Through completion of this unit, you will:

1. Plan a performance of advanced technical skills
2. Demonstrate advanced level technical skills through performance
3. Evaluate the performance
ASSESSMENT EVIDENCE

This unit will be assessed through the demonstration of performance. You should provide:

- A video of the performance of a minimum duration of 30 minutes.
- An evaluation of a performance. The evaluation should include:
  - The rationale for the pieces chosen, including the technical skills to be demonstrated and the theme.
  - A description of the preparation/rehearsal for the performance.
  - Identification of own technical strengths and areas for development with reference to specific elements of the performance.
  - An evaluation of the performance itself.

Please note that the video should show a continuous performance with no excessive breaks between pieces.

Evidence may be presented as: written work, video presentation, or podcast. Total written must not exceed 1500 words. Total audio/visual evidence must not exceed 10 minutes.

All performances must consist of a minimum of two pieces which show you undertaking two different roles as a performer and in a technical/production role. This can be own choice pieces or drawn from the indicative repertoire lists. The choice of pieces should be agreed in advance with RSL. Guidance on the choice of pieces at an appropriate standard is available.

APPROVAL OF REPERTOIRE

Please see page 14 of this syllabus document for information on RSL’s process for the approval of repertoire.

DEVELOPING YOUR BRAND AS A CREATIVE PROFESSIONAL

Unit Code: PD607
GLH: 10
Total time for this unit: 100

AIMS/PURPOSE

The creative industries can be a challenging place to find work which will develop your career as a creative professional. There are a large number of individuals seeking work at any one time which means that competition can sometimes be fierce. Once you have established your brand, how do you develop and maintain it within the sector?

This unit will give you opportunities to gain an understanding of the ways in which you develop your brand within the creative industries, and to develop skills in marketing and promoting yourself and your work.

UNIT CONTENT

This unit is about developing your knowledge, skills and understanding about the ways in which you can build and establish your ‘brand’ in the longer term and how to market this to different audiences so that you can maintain a steady and consistent workflow.

DEVELOPING CREATIVE IDEAS AND YOUR ‘BRAND’

Within the creative industries it is important to understand the ways in which you can promote and market yourself as a creative professional. This could be as a performer, a peripatetic teacher or in another creative role.

Questions to ask include:

- What are my skills and who needs them? How do I present my skills?
- What experience do I have and how do I present this?
- How can I build my audience base and who else would be interested in my ‘brand’?
- Do I have any transferrable skills which could be used outside of the sector (e.g. in education and training or in marketing/advertising or business?)
- How do I build my promotion and my ‘brand’ – who do I need to go to and what do I need to do?

MARKETING AND PROMOTING YOUR ‘BRAND’

You will have already been marketing and promoting your brand as a new creative professional within the sector. You will now need to think about how to maintain and develop that brand to reach a wider audience or to maintain and develop links with your existing audience.

You will need to develop further material which showcases not only your skills but also your brand identity. You’ll also need to think about how to further develop your brand portfolio so that you can effectively showcase your skills to both your target audience and potentially more widely. This could include:

- Pictures of you/your band/performances you have taken part in
- Video of your performances or show reels
- Showcases
- Biographies or summaries of your skills and experience
- Reviews of your performances
- Your teaching experience and feedback from parents and students
You’ll need to think about how you send out your material to potential audiences and how to maintain and develop your contacts and networks. This could be via social media (Facebook, Twitter, Instagram etc) or more formal communications like e-mail. It could even be face to face.

CONTINUOUS PROFESSIONAL DEVELOPMENT (CPD)

Alongside the development and maintenance of your brand you will need to give yourself opportunities to further develop your knowledge, skills and understanding for your brand and how to manage your career as a performer.

CPD can be offered by a number of organisations and it is important to know how to select appropriate CPD that you can attend and which will be of benefit to you in the short, medium or long term.

AIMS/PURPOSE

A key principle of teaching is that of inclusivity. Teachers may deliver to students from a wide range of backgrounds, age groups and levels of skill and ability. Therefore, inclusivity becomes integral to planning, delivering and evaluating the learning process. Teachers need to be able to understand, promote and champion diversity, equality and inclusion both within their own teaching practice and more widely in music and performing arts. This unit gives you the opportunity to broaden and deepen your understanding of inclusive learning through your experiences of teaching individuals and groups with different and diverse needs and how to promote positive behaviour through practical activities which are drawn from your own teaching experience.

UNIT CONTENT

This unit is about developing your knowledge, skills and understanding of inclusivity, the underlying pedagogical approaches and theories of inclusivity, and how it is applied in teaching practice.

Inclusivity tends to focus on students with special educational needs (SEN) and they are an important factor for the planning, management and evaluation of learning. However, inclusive learning is in its broadest sense about considering the diverse needs and backgrounds of all students to create a learning environment where they feel valued and have equal access to learn.

LEGISLATION RELATED TO INCLUSIVITY

Teachers need to be aware of the legislation which is related to inclusivity, most importantly the Equality Act (2010). The Act is based around the two key concepts of personal characteristics protected by the law and prohibited conduct.

PERSONAL CHARACTERISTICS
Age, Disability, Gender Reassignment, Marriage and Civil Partnership, Pregnancy and Maternity, Race, Religion or Belief, Sex, Sexual Orientation

PROHIBITED CONDUCT

- Direct Discrimination - treating one person worse than another because of a protected characteristic and includes discrimination by association and perception. This sort of discrimination is never justifiable.
- Indirect Discrimination - putting in place a rule, policy or practice that has a worse impact on someone with a protected characteristic than someone without one, and that person suffers disadvantage. This sort of discrimination might be justifiable and can be deemed NOT to have taken place if it can be shown that the treatment is a proportionate means of achieving a legitimate aim.
- Discrimination arising from Disability happens when a person is treated unfavourably because of something arising as a consequence of the disability. This is different from direct and indirect discrimination. It can be deemed not to have taken place if it can be shown that the treatment is a proportionate means of achieving a legitimate aim or if the person did not know and could not reasonably have been expected to know about the disability
- Victimization
- Harassment
INCLUSIVE PRACTICE

Inclusivity is not just restricted to delivering lessons to student. It needs to be a key factor in the planning and evaluation of learning as well. Inclusive practice may take the following forms:

PLANNING LEARNING

- Ensuring that goals for students are achievable.
- Planning individual learning goals for students.
- Carrying out formative assessment of students’ skills and abilities.
- Taking into account any disabilities or learning difficulties which may require different methods of delivery or teaching styles to be incorporated.
- Ensuring appropriate choice of repertoire (e.g. age, cultural or religious background etc).

DELIVERING TEACHING SESSIONS

- Identifying any particular needs for students before a class.
- Managing the teaching session so that everyone feels included.
- Communicating clearly with everyone and ensuring that everyone has understood instructions.
- Identifying any additional support needed during a class.

EVALUATING LEARNING

- Identifying individual progress and needs for future sessions.
- Evaluating lesson plans and identifying any changes needed.
- Talking to students about their progress and getting feedback on their needs.

STUDENTS WITH SPECIAL EDUCATIONAL NEEDS (SEN)

Teachers need to be aware of the range of special educational needs that students may have and how students with special educational needs can learn and make progress.

Special educational needs include students with disabilities and/or learning difficulties. The Equality Act defines disability as ‘a physical or mental impairment which has a substantial and long-term adverse effect on a person’s ability to carry out normal day-to-day activities. These can fall into four broad categories:

Cognition and Learning Needs
E.g. general and/or specific learning difficulties (such as Dyscalculia and Dyslexia)

Communication and Interaction Needs
E.g. Autistic Spectrum Disorder (ASD), speech, language and communication needs

Sensory and Physical Needs
E.g. hearing impairment, multi-sensory impairment, physical disability, vision impairment

Social, Mental and Emotional Needs
E.g. Attention Deficit Disorder (ADD), Attention Deficit Hyperactivity Disorder (ADHD), mental health conditions

Teachers need to be aware of the Special Educational Needs Code of Practice (2015), which provides statutory guidance on duties, policies and procedures relating to Part 3 of the Children and Families Act (2014) and associated regulations.
LEARNING OUTCOMES

Through completion of this unit, you will:

1. Apply theoretical and pedagogical concepts of inclusivity to their own practice.
2. Explain how to identify and manage inclusivity in their own teaching practice.
3. Compare and contrast inclusive practice
4. Evaluate the effectiveness of their own inclusive practice.

ASSESSMENT EVIDENCE

You will need to provide:

Two case studies demonstrating your own approach to inclusive practice which covers two contrasting individuals or groups of students and which is underpinned by research into wider pedagogical approaches to inclusivity.

The case studies should cover:

- How you plan and manage teaching of this individual or group
- How the needs of students are identified and incorporated into planning and teaching
- A comparison of the needs of the two groups
- An evaluation on the ways in which teaching styles have been used to ensure that the individuals or all students in the groups are engaged and motivated.

AIMS/PURPOSE

The ability to plan and facilitate learning is at the core of good teaching practice. In the creative arts, teachers need to consider how to create inspiring and motivating lessons which will engage and encourage students. This unit will give you the opportunity to show how to plan and carry out lessons with your students and evaluate your teaching practice and the learning process.

UNIT CONTENT

This unit is about developing your knowledge, skills and understanding of planning, facilitating and evaluating teaching and learning.

Evidence of planning, facilitating and teaching learning should be drawn from your own teaching practice for individuals or groups working up to level 4 (Level 4 Diploma, Advanced 1/2).

PLANNING LEARNING

Individuals and groups need a structured programme of learning to achieve their goals. Therefore, lesson planning is an important part of teaching practice. You need to be able to put together structured plans for teaching sessions and classes which show progression towards an identified goal. This is particularly important for teachers of graded examinations, where the abilities of individuals and groups of students will normally dictate the rate of progress, and some will progress faster than others.

There are a number of methods to use when planning learning:

- Schemes of work – these can be useful tools to provide detail of the content and structure of a set of lessons which can identify content coverage and plan out the time required to reach the identified goal.
- Lesson plans – for each individual lesson, a detailed plan can be helpful to ensure that the required content for that lesson is covered and that students are making progress with each lesson.

What to think about when planning learning

- Initial assessment – where are the students in terms of their learning and achievement?
- What is the goal they are working towards – exam, performance, show, recital?
- What will need to be covered and in what order?
- Will you need to build in time to practice/refresh learning/prepare for the examination?
- If you have groups do any students have particular needs?
- How can you bring in opportunities for creativity (e.g. improvisation and student-led activities)?
FACILITATING LEARNING

When facilitating learning, you need to be aware of:

- Motivating and encouraging students – what methods can you use to keep them motivated and engaged?
- Communication – what methods can you use to communicate effectively with individuals and groups?
- Demonstration – showing students the syllabus elements
- Using resources – using props or other resources to explain or demonstrate to students
- Feedback – how do you feed back to your students on their progress?

EVALUATING LEARNING

Reflection and evaluation of how students are learning and progressing are an essential part of monitoring schemes of work and lesson plans and making appropriate changes to plans and lessons to ensure that students are progressing appropriately.

ASSESSMENT EVIDENCE

You should submit:

- An outline of two schemes of work for contrasting individuals or groups of students. This could include:
  - Working at different levels
  - Working towards different goals (exam and show)
  - Working in different genre/disciplines
  - Different ages and/or abilities
  - Different cultural/religious or ethnic backgrounds
- Lesson plans for five consecutive lessons for each individual/group within the scheme of work
- A video submission of two 20 minute minimum contrasting lessons in action (this must be one from each of the 5 planned lessons)
- An evaluation and comparison of the two lessons including student feedback

Evidence may be presented as; written work, video presentation, or podcast. Total written evidence must not exceed 1500 words. Total audio/visual evidence must not exceed 10 minutes.

LEARNING OUTCOMES

Through completion of this unit, you will:

1. Plan lessons within a scheme of work
2. Demonstrate a range of teaching techniques appropriate to contrasting groups or individuals
3. Evaluate and compare teaching approaches

QUALITY ASSURANCE OF ASSESSMENT

Unit Code: PD610
GLH: 10
Total time for the unit: 100

AIMS/PURPOSE

In this unit you will develop an understanding of how to quality assure assessment practices between assessors including how to make judgements about assessment practice, how to carry out standardisation activities and how to record and communicate quality assurance activities.

UNIT CONTENT

PRINCIPLES OF QUALITY ASSURANCE OF ASSESSMENT

Quality assurance involves:
- Understanding the standards that are to be maintained
- Ensuring that standards are clearly communicated and understood by colleagues
- Monitoring the standards over time
- Comparing standards with other like assessments
- Identifying and managing any potential risks or issues to maintaining standards

MAKING JUDGEMENTS ABOUT ASSESSMENT PRACTICE

If you are responsible for quality assuring assessment you will need to make decisions about assessment practice. This could include:
- The extent to which assessors are standardised
- Whether the standards being used are current and up to date or whether there is evidence to suggest changes are needed
- How accurate the assessment practice is in maintaining and reinforcing the standard
- The validity of the assessment and whether it continues to be valid

PRINCIPLES OF STANDARDISATION

You are likely to be in a position where you will need to carry out standardization activities for assessors. This may be for a small group or a larger cohort of assessors. You may also be working with colleagues in similar quality assurance roles who are also involved in standardization activities.

Standardisation can take a variety of forms. This can include:
- Meetings of assessors to consider performance evidence and discuss outcomes and standards.
- ‘Blind marking’ activities to assess how comparable assessor judgements are in practice.
- Double marking of written evidence by more than one assessor to compare judgements.
- Monitoring examination sessions and assessor practice in the field.
- Evaluating statistical information related to assessor performance over time.
You will need to consider the most appropriate method of standardization and whether the activities chosen give assessors opportunities to discuss and agree standards.

COMMUNICATING AND RECORDING THE OUTCOMES OF QUALITY ASSURANCE ACTIVITIES

You will need to ensure that you have appropriate mechanisms to record and communicate the outcomes of quality assurance activities, both for internal and external purposes.

Recording could include:

- Meeting notes and agreed actions.
- Action points from discussions.
- Forms and other formal documentation recording outcomes of standardization or monitoring activities.
- Action plans for standardisation and monitoring.

Communicating could include:

- Informal discussion with assessors and colleagues
- Formal meetings or forums for discussion of standards
- Formal written communication both internally and externally
- Meetings with colleagues to discuss quality assurance

LEARNING OUTCOMES

Through completion of this unit, you will:

1. Plan and carry out quality assurance activities for assessment.

ASSESSMENT EVIDENCE

You will need to submit:

A case study for the quality assurance of assessment that you have carried out. This should include:

- How you planned the quality assurance activities – what methods were chosen and how these were appropriate to the assessment methodology.
- How you carried out the quality assurance activities – what preparations and resources you needed to have in place, how you conducted the quality assurance activities and how you managed the process.
- How you recorded and communicated the outcomes of the quality assurance activities including the types of recording and communication methods used.
- An evaluation of your quality assurance practice – identifying your strengths and areas for improvement, how you managed the quality assurance process, any learning and development needed for the future.

Evidence may be presented as; written work, video presentation, or podcast. Total written evidence must not exceed 1500 words. Total audio/visual evidence must not exceed 10 minutes.

UNDERSTANDING LEARNING

Unit Code: PD611
GLH: 10
Total time for the unit: 100

AIMS/PURPOSE

The learning process is at the heart of teaching. It is vital that teachers understand how learning takes place and how pedagogical approaches can influence learning. Teaching in music and performing arts areas also brings its own set of influences in the motivation and engagement of learners. In this unit, you will understand how a range of pedagogical approaches can be applied to your own teaching and the uses more widely in performing arts teaching, how different learner groups develop and how this affects the selection of repertoire and teaching styles.

UNIT CONTENT

This unit is about developing your knowledge, skills and understanding of pedagogical approaches to learning.

PEDAGOGICAL APPROACHES

Pedagogy relates to the “how”, or practice of educating. It concerns the “how” of teacher and learner interaction, whilst recognising that how children learn and develop is not just subject to what is intended to be taught, but it is also of particular importance how it is facilitated.

There are a wide range of pedagogical approaches. Learners need to be able to consider the range of approaches commonly used in teaching in the performing arts and consider how these can be applied to your own practice in teaching music and the performing arts.

Pedagogical approaches could include:

- Creative pedagogy
- Enquiry-based learning
- Reflective learning
- Collaborative learning
- Learning through play
- Learning through demonstration
- Effective communication

EDUCATION IN THE CREATIVE ARTS

Understanding how learners engage in music and performing arts is important for teachers. Music and performing arts can often be used as a way of motivating and engaging those learners who find traditional educational approaches more challenging. Many learners are engaged by practical delivery and a sense of achievement through the development of technical, musical and performance skills.

Learners who enter graded examinations will also have to demonstrate self motivation and self reliance as teachers will often have a limited amount of teaching time to deliver the skills, knowledge and understanding required.
COGNITIVE DEVELOPMENT

Teaching depends on the understanding of how children develop and how the stages of development can influence teaching styles. Teachers of music and performing arts will often deliver lessons to a diverse range of learners, from the very young to the very old. A secure understanding of the needs of different age groups is therefore important. In particular, teachers need to be aware of:

- The emotional development of children and adolescents
- Identity and self-esteem
- Body esteem and body image
- Difficult feelings for dancers and how to manage them
- Challenge, motivation, support and encouragement
- Fostering creativity
- Individuality and difference
- Self-care and responsibility for learning
- The needs of children and adults with learning difficulties and/or disabilities

SELECTION OF REPERTOIRE

The selection of challenging yet appropriate repertoire will be largely dependent on the learners age groups, skill levels and individual needs. Teachers will need to be aware of the following considerations when selecting repertoire:

- Physical stamina and development
- Vocal/physical health
- Suitability of material for younger learners
- Complexity of material
- Cultural sensitivity and awareness
- Needs of individual learners

RESEARCH AND EVIDENCING THE APPROACHES

You will need to show how your research into pedagogical practice can be applied to your own practice. This will include providing a sound evidence base that informs your practice and your evaluation.

LEARNING OUTCOMES

Through completion of this unit, you will:

1. Research and evaluate underpinning pedagogical theories and approaches
2. Understand how a range of different pedagogical approaches meet the needs of music and performing arts learners
3. Understand learner development and be able to select appropriate and relevant repertoire for learners.
4. Understand how to critically evaluate your own teaching practice in relation to the underpinning theories and approaches
ASSESSMENT METHODS

You should provide the following evidence for assessment:

A case study which includes:

- Analysis of at least three pedagogical practices
- How these relate to your own practice and to performing arts teaching more widely
- The needs of two contrasting groups of learners in relation to their cognitive development – the group of learners should be drawn from your own experience
- How the needs of these learners influence the selection of repertoire
- An analysis of your practice and how your research evidence base informs your practice

Evidence may be presented as; written work, video presentation, or podcast. Total written evidence must not exceed 1500 words  Total audio/visual evidence must not exceed 10 minutes.

SAFE TEACHING

(Level 4)

Unit Code: PD413
GLH: 10
Total time for the unit: 100

AIMS/PURPOSE

This unit provides you with an overview of the key areas of legislation and good practice that you will need to be aware of if you are teaching either privately or within educational institutions (schools, colleges etc). It is vital that you are aware of and comply with the requirements so that you may demonstrate your responsibilities and your duty of care for the wellbeing and safety of the students you teach.

UNIT CONTENT

Legislation applicable to teaching (in any setting) in the UK.

HEALTH AND SAFETY

You need to be aware of the requirements of the Health and Safety at Work Act 1974 and how this affects your own situation. This is particularly important if you teach in a range of settings or own your own premises. You will need to understand how to ensure that students are safe when you have responsibility for them and that you are aware of any potential risks to health and safety in the venue or premises you teach in.

You will also need to understand how public liability and/or professional indemnity insurance applies to your work as a teacher.

SAFEGUARDING AND CHILD PROTECTION

The NSPCC defines Safeguarding as ‘the action that is taken to promote the welfare of children and protect them from harm’. Safeguarding can also be used more widely to include anyone who is at risk of abuse or neglect. For example, vulnerable adults or individuals with learning difficulties or disabilities.

Child protection is part of the safeguarding process. It focuses on protecting individual children identified as suffering or likely to suffer significant harm. This includes child protection procedures which detail how to respond to concerns about a child. In tandem with safeguarding and child protection is also an awareness of the Equality Act 2010 and the rights of individuals to be treated fairly and equally.

As a teacher, you will need to be aware of your responsibilities in relation to safeguarding and child protection which includes:

- How to ensure that children and/or vulnerable adults are protected and safe when in your care.
- How to report any suspected safeguarding and/or child protection concerns and to whom.

Whilst it is not mandatory to have a check with the Disclosure and Barring Service (DBS), it is recommended that you understand what this is and what it means.
Questions to ask yourself about safe practice

- How do you make sure that your teaching is inclusive? What are the challenges and issues to be addressed?
- How do you make sure that you are aware of health and safety requirements?
- What sorts of measures do you have in place for safeguarding/child protection?
- How do you make sure you are protecting children you are teaching?
- How do you make sure you are insured against any potential risks?

RESOURCES

There are a number of websites which give information about health and safety and responsibilities. Some useful sources include:

http://www.hse.gov.uk/legislation/hswa.htm

www.educare.co.uk/ - Offers online courses in safeguarding and child protection.

LEARNING OUTCOMES

Through completion of this unit, the learner will:

1. Assess and manage risk when teaching
2. Manage safe practice when teaching
3. Reflect on your own practice

ASSESSMENT EVIDENCE

You should provide:

A case study explaining how you manage safe practice when teaching. This should include how you assess risk, manage health and safety issues and safeguarding/child protection and how you reflect on your own practice.

Evidence may be presented as; written work, video presentation, or podcast. Total written evidence must not exceed 1000 words. Total audio/visual evidence must not exceed 10 minutes.
